Regional delivery performance

Table 1. On-time delivery rate by region

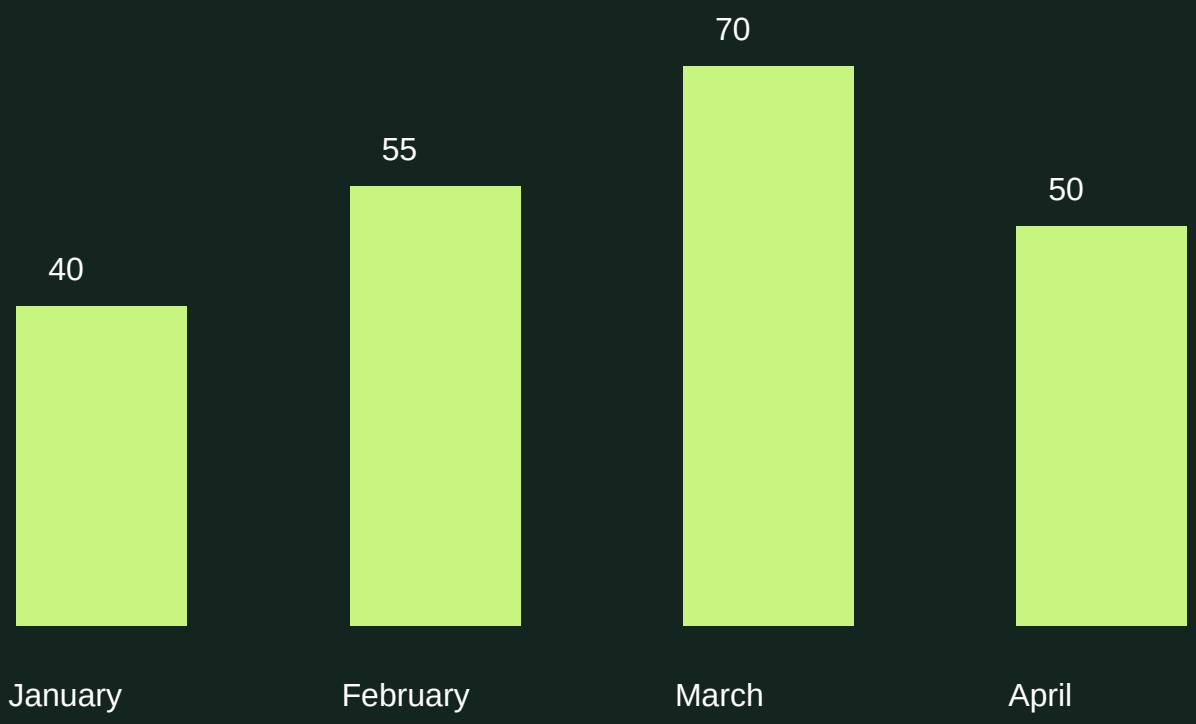
Region	Orders	On-time rate
North	1,200	94%
South	950	88%
West	1,450	97%

West had the highest on-time rate at 97%.

South had the lowest on-time rate at 88%.

Monthly energy consumption

Figure 1. Electricity usage in MWh



March was the peak month, consuming 70 MWh.

April usage decreased to 50 MWh.

Incident response policy

Severity-one alerts require acknowledgment within 15 minutes.

The incident commander publishes updates every 30 minutes.

Recovery exercises are scheduled once per quarter.

Application logs are retained for 30 days.
